

Mahmoud Mansy

Frontend Developer(React.js)

Motivated Junior Frontend Developer proficient in HTML5, CSS3, JavaScript, and React, with expertise in Sass, Tailwind CSS, and Responsive Web Design. Strong problem-solving skills and a team player dedicated to delivering high-quality web applications. With an additional background in **biomedical engineering**. Known for seamless UI/UX and rapid development, capable of completing landing pages in 1 day and full frontend projects in 3 days. Excited for collaborative opportunities! Check out **my Portfolio** for a closer look at my work. Open to exciting opportunities and collaborations, I am particularly focused on contributing to frontend development projects.
