

# Mahmoud Mansy

## Frontend Developer

Motivated Junior Frontend Developer with a passion for creating seamless and engaging user interfaces. Eager to learn and grow in a fast-paced environment, committed to leveraging modern frameworks like React for dynamic project success. Strong problem-solving skills and a team player dedicated to delivering high-quality web applications. With an additional background in **biomedical engineering**, I bring a unique perspective to Full Stack Development, excelling in ReactJS, JavaScript, HTML, CSS, and Python (Flask). Known for translating complex requirements into scalable applications, I am committed to innovating and streamlining healthcare processes, showcasing a proven track record of delivering high-quality code and meeting project milestones. Check out **my Portfolio** for a closer look at my work. Open to exciting opportunities and collaborations, I am particularly focused on contributing to frontend development projects.
